

FIRE TRAINING PROGRAM

800-875-7200
www.protegis.com

- Fire extinguishers can prevent injuries and minimize damage only if employees are proficient at operating them.
- According to the OSHA Federal Guidelines, employees are required to be trained to use fire extinguishers and other safety procedures upon employment and annually thereafter.
- Additionally, many insurance companies require that employees be trained in fire extinguisher usage.
- To aid in keeping companies in compliance, Protegis offers a wide variety of professional fire extinguisher training programs.
- All classes include the operation of a unit by each student to comply with OSHA.
- Pricing based on training being conducted between 7 AM and 6 PM

TRAIN THE TRAINER

This is an extensive one-day course that certifies the student as a fire instructor for 3 years. This session includes: lesson plans, power point programs, classroom and hands on training, evaluations, and lunch at our training facility. Class size is limited to 8 people. Training can also be conducted at your facility. Additional charges apply.

SPECIALIZED FIRE TRAINING

Training designed to fit your needs such as systems training, combined extinguisher and systems training, revolving training and team firefighting.

CONTRACT FIRE TRAINING

This session includes: classroom and live fire training or Simulator training, permits, handouts, certificates, and extinguishers provided for 25 people. Must pay for two years in advance. One class in 2019 and one in 2020.

MODIFIED CLASSROOM FIRE TRAINING Plus nitrogen only recharges

This classroom presentation includes a power point presentation, a verbal presentation from a certified instructor, question/answer sessions, full color handouts, and fire training certificates. Each student operates an extinguisher. Class includes up to 50 people. Nitrogen recharges are \$5.00 each.

CLASSROOM AND LIVE FIRE TRAINING Plus recharges and permit if needed

This session combines both the classroom and live fire training sessions. The certificates provided for this session signify both classroom and live fire training. Class includes up to 50 people.

NEW.... RESTAURANT SYSTEM & FIRE EXTINGUISHER FAMILIARIZATION

Training session that covers the automatic and manual operation of the kitchen system and fire extinguisher using the simulator. In accordance with OSHA each student must demonstrate the ability to operate a fire extinguisher. Up to 25 students.

LIVE FIRE TRAINING

Plus recharges and permit if needed

This session includes a short pre-brief and hands on training fighting a Class B fire. We will also provide instructional pamphlet, and fire training certificates. Class includes up to 50 people.

LASER SIMULATOR TRAINING

This session includes your choice of classroom training or a short pre-brief. Each student combats a simulated fire on a diamond screen using a laser extinguisher. Great for companies in congested areas and hospitals. Instructional pamphlets and training certificates are included.

To schedule, for more information, or if you have questions please call your service technician or Terry Flanagan @ (216)433-7200 Ext 3073 or email him at tflanagan@protegis.com

The Protegis Difference

- Your instructor is a Level III nationally registered instructor through the DOD, IFSAC, and National Pro Board for all classes.
- All Training is OSHA compliant
- Simulator training is weather proof, clean, and requires no Permit
- Several levels of live fire training (not the same old thing year after year!)
- Classes include workplace and home fire safety
- Full color training brochures
- Training certificates for individual and the company
- Free home fire extinguisher checks
- Free booth at your safety or training day
- Several types of safety equipment will be displayed including: ladders, fire extinguishers, CO and smoke detectors, self-defense spray and home safety checklists
- Classes in Safety and Fire Protection can be designed to fit your specialized needs
- Free review of your emergency action plans (EAP)
- When possible we use your fire extinguishers that are due for major maintenance for our training to keep your costs down
