

SANITIZING TRAINING

COURSE OPTIONS*

“Sanitizing Training”

- We train you to sanitize your own facility and how to sanitize safely.
- Training will take 4-6 hours depending on number of students in the class.
- Your company must purchase, or have us supply them with, required PPE and pump sprayer which they must have on hand when training is conducted.
- Our chemical is EPA listed and individuals must receive our training in order to purchase the chemical from us.

“Train the Trainer”

“Train the trainer” is for companies with multiple locations who want to be able to train other personnel in their company on how to sanitize safely.

- After this course, the student will be able to train anyone in their company since we also provide the lesson plan and PowerPoint to use for your own training.
- This course will take 6-8 hours and class size is limited.
- Your company must purchase, or have us supply them with, required PPE and pump sprayer which they must have on hand when training is conducted.
- Our chemical is EPA listed and individuals must receive our training in order to purchase the chemical from us.

PLEASE EMAIL US FOR A QUOTE

TRUST@PROTEGIS.COM

Our quotes will include cost for the course, the PPE and the chemical.

**All courses are taught live in-person, but virtual training is available to companies or personnel with specific Mask Training or Fit Test in order to qualify.*
